

Transnational Meeting in Malta

23rd - 27th November 2017

The first meeting of this Erasmus+ project took place at Gozo College Sannat Primary School and Special Unit with the participation of schools from Latvia, Germany, Finland Portugal and The Netherlands. During these meetings participants revised the timeline of the project, discussed the Logo competition, the next visit to Finland, the use of eTwinning by all partner schools, preliminary work on the manual for well-being in schools including the Buddy Bench and suggestion boxes. Other activities such as the Christmas greetings on TwinSpace were also discussed.

Participants had a warm welcome at Sannat school and were shown around the school. They mingled in the school life together with teachers and students in their everyday activities. Through the special activity in the school hall, all participants were given the opportunity to deliver a short presentation of their school and their country. Afternoons were dedicated to some free time and touring around the beautiful Islands of Gozo and Malta. Evenings were spent in different restaurants indulging in typical Maltese and Mediterranean food. Through these informal activities, friendship was initiated between all participants.

A special after school activity was organised in which participants joined school teachers during their professional development workshop. This was dedicated to the well-being of the educators. The title was 'The Brain Spa' and the animator was *Colleen Bower*.

Welcoming participants at Sannat School

Having lunch together

Meetings at school

Participating in a professional development workshop – The Brain Spa

Touring around the beautiful islands of Malta and Gozo

Visiting other schools in Gozo
